

PRESS RELEASE

Valeo Paves the Way for New Era of Mobility at CES 2026

Paris—December 16, 2025—Valeo returns to CES 2026 to introduce its latest technologies for mobility and beyond. As a key technology partner to global automakers, Valeo will showcase integrated solutions designed to make vehicles more sustainable, more efficient and safer. These innovations span the vehicle's intelligence, energy management and visibility systems to enhance the entire user experience.

"Since 2014, CES has served as an exciting starting point to each year for Valeo," **said Christophe Périllat, Valeo Chief Executive Officer**. "As a leading developer of technologies for smarter, safer and more sustainable mobility, we are looking forward to the 2026 edition to share our latest solutions for tomorrow's vehicles as well as our newest partnerships with automotive and technology global players."

Do not miss our media activities:

- **Monday, Jan. 5, 10 a.m. - 5 p.m. :** Media preview and interviews
- **Tuesday, Jan. 6, 11 a.m. - 2 p.m. :** Media tour of booth exhibits and demo cars with speakers. Lunch will be provided to all registered journalists

> Register at: linda.aubuchon@valeo.com

Valeo will be present at **three locations**:

- **Central Plaza (Booth CP145):** Main booth to explore Valeo's latest technologies for more sustainable, safer and connected mobility
- **Piero's Restaurant (355 Convention Center Drive):** Experience live, in-vehicle demonstrations of Valeo's comprehensive software-defined vehicle (SDV) and new mobility solutions.
- **Venetian Campus (Booth 51469):** Extending beyond automotive, Valeo will debut Keynnect, a smart home access solution based on the company's ultra wideband access technology.

[Valeo's press kit](#) summarizes all the technologies being presented at CES. Highlights include:

- **Valeo SDV ecosystem** featuring Valeo's entire range of solutions for Software Defined Vehicles—from efficient sensors to high performance computing units and a full-stack software offering - brought to life using a functional skateboard
- **Augmented Valeo Panovision** showcased in demo car including driver and interior monitoring systems, with an integrated camera and adaptive warning based on a driver's gaze, to help keep their eyes on the road and reduce distracted driving

- **New Valeo Scala 3 Evo LiDAR**, offering increased point cloud accuracy and a more compact design allowing integration behind a windshield, a significant technical advance for Level 3 vehicles and greater autonomy
- **New highly integrated and ultra efficient EV platform** combining: ultra-compact and optimized thermal management systems (for aerodynamic and fast charging), versatile and efficient eAxles (magnet or magnet-free), and advanced power electronics, all designed to maximize electric range, battery life, and passenger comfort
- **First application of EvenLED technology** for stylish, uniform light that dramatically improves visibility and communication with other road users
- **Optimal visibility with Valeo Visioblade**, using a sensor and software with a wiper blade that has channels that distribute fluid through holes located along its entire length.
- **Smart cooling for tomorrow's data centers** leveraging Valeo's decades of expertise in automotive thermal management to offer the data center industry a comprehensive and scalable ecosystem of cooling solutions
- **e-Chromic Glasses** with lenses that synchronize with vehicle rain and light sensors, allowing instant darkening or lightening

About Valeo

Valeo is a technology company and partner to all automakers and new mobility players worldwide. Valeo innovates to make mobility safer, smarter and more sustainable. Valeo enjoys technological and industrial leadership in electrification, driving assistance systems, reinvention of the interior experience and lighting everywhere. These four areas, vital to the transformation of mobility, are the Group's growth drivers.

Valeo in figures: 21.5 billion euros in sales in 2024 | 106,100 employees, 28 countries, 155 plants, 64 research and development centers and 19 distribution platforms at February 28, 2025. Valeo is listed on the Paris Stock Exchange
